Education

Bachelor of Engineering in Computer Science and Engineering 2024–2028
Kongu Engineering College, Perundurai, Erode, Tamil Nadu

Technical Skills

- **Programming Languages:** C, C++, Java, Python, JavaScript
- **Frontend:** HTML5, CSS3, React.js
- **Backend:** Node.js, Express.js
- **Databases:** MySQL, MongoDB Atlas
- **Tools:** GitHub, VS Code, LeetCode
- **Soft Skills:** Communication, Teamwork, Problem Solving

Projects

Farmer Management System Java, MySQL, JDBC

- Engineered a Farmer Management System for registering, updating, and retrieving farmer and product records.
- Integrated a MySQL database to ensure secure, structured, and efficient data storage and retrieval.
- Delivered a user-friendly platform that improved data accessibility and promoted transparent farmer-to-consumer interactions.

Freelancer Marketplace MERN Stack

- Built a full-stack Freelancer Marketplace web application connecting clients and freelancers.
- Enabled job posting, proposal submission, and project assignment workflows.
- Implemented proposal review and feedback management features to streamline collaboration.

Waste Water Treatment Analysis Python, Machine Learning

- Built a machine learning system for sewage wastewater quality analysis.
- Applied the Random Forest algorithm to predict water quality using the Water Quality Index (WQI).
- Generated treatment recommendations for sustainable wastewater management.

Experience

Full Stack Developer Intern – CopterCode Jan 2026

- Created full-stack web solutions using React.js, Node.js, ensuring seamless frontend-backend integration and performance.
- Integrated APIs, databases, and CMS solutions such as Sanity for dynamic content management.
- Contributed to deployment workflows and maintained scalable, efficient codebases.

Implant Training – Web Development

Jul 2025

- Gained hands-on experience in Web Development by designing responsive web pages using HTML, CSS, and JavaScript.
- Built responsive web pages using HTML, CSS, and JavaScript while applying frontend development concepts.

Implant Training – VB 6.0 Application Development

Dec 2025

- Completed implant training in VB 6.0 Application Development with practical exposure to desktop application development.
- Worked on desktop applications using VB 6.0 and gained hands-on experience with form design, event handling, and database connectivity.
