Objective

Aspiring Full Stack Developer with hands-on experience in building efficient, scalable, and user-friendly web applications using modern technologies. Seeking to contribute my technical skills and develop innovative software solutions while continuously learning and growing.

Education

- **Bachelor of Engineering in Computer Science and Engineering** 2024–2028
Kongu Engineering College, Perundurai, Erode, Tamil Nadu CGPA - 7.81
- **HSC - Higner Secondary School** 2023-2024
AGN Matric Higher Secondary School,Edappadi,Salem,Tamil Nadu 83%

Projects

Freelancer Marketplace MERN Stack

- Built a full-stack Freelancer Marketplace web application connecting clients and freelancers.
- Enabled job posting, proposal submission, and project assignment workflows.
- Implemented proposal review and feedback management features to streamline collaboration.

Karvensen React.js, Sanity CMS

- Developed responsive and reusable frontend components using React.js.
- Integrated Sanity CMS for dynamic content management and collaborated with the team using Git/GitHub.

Waste Water Treatment Analysis Python, Machine Learning

- Built a machine learning system for sewage wastewater quality analysis.
- Applied the Random Forest algorithm to predict water quality using the Water Quality Index (WQI).
- Generated treatment recommendations for sustainable wastewater management.

Area Of Interest

- DSA
- DBMS
- JAVA

Technical Skills

- **Programming Languages:** C, C++, Java, Python
- **Web Technologies:** HTML5, CSS3, Javascript, React.js, Node.js, Express.js
- **Databases:** MySQL, MongoDB Atlas
- **Tools:** GitHub, VS Code, LeetCode

Experience

Full Stack Developer Intern – CopterCode Jan 2026

- Worked as a Frontend Developer Intern in a hybrid environment, contributing to the Karvensen and Veldursen projects.
- Developed responsive user interfaces using React.js and integrated content with Sanity CMS.
- Collaborated with team members using Git/GitHub and gained experience with real-world development workflows.
