Objective

Aspiring Full Stack Developer with hands-on experience in building efficient and scalable web applications using modern technologies. Eager to apply my technical skills to develop high-quality software solutions and contribute to innovative projects.

Education

- Bachelor of Engineering in Computer Science and Engineering** 2024 – 2028
Kongu Engineering College, Perundurai, Erode, Tamil Nadu CGPA: 7.81
- HSC - Higher Secondary School** 2023 – 2024
AGN Matric Higher Secondary School, Edappadi, Salem, Tamil Nadu 83%

Projects

Freelancer Marketplace | MERN Stack Apr 2026 – Present

- Engineered a full-stack Freelancer Marketplace using the MERN stack, enabling job posting, proposal submission, project assignment, and collaboration between clients and freelancers through a unified platform.
- Live Demo: <https://freelancer-sigma-ebon.vercel.app/>

Karvensen | React.js, Sanity Studio CMS Jan – Feb, 2026

- Built responsive React.js components, integrated Sanity CMS for dynamic content management, and collaborated with the development team using Git/GitHub while following modern development practices.
- Live Demo: <https://karven.vercel.app/>

Waste Water Treatment Analysis | Python, Machine Learning Mar – Apr, 2026

- Designed a machine learning-based sewage wastewater quality analysis system using the Random Forest algorithm and Water Quality Index (WQI) to predict water quality and generate treatment recommendations.
- GitHub Link: <https://github.com/sanjaykumardk2006/Water-Treatment-Analysis>

Areas of Interest

- Database Management Systems
- Data Structures and Algorithms
- Java

Technical Skills

- Programming Languages:** C, C++, Java, Python
- Web Technologies:** HTML5, CSS3, JavaScript
- Frameworks & Runtime:** React.js, Express.js, Node.js
- Databases:** MySQL, MongoDB
- Tools:** GitHub, VS Code, LeetCode

Experience

Full Stack Developer Intern – CopterCode | MERN Stack Jan – Feb, 2026

- Contributed to the development of 2 production web applications (Karvensen and Veldursen) as a Frontend Developer Intern in a hybrid development environment.
- Built 10+ responsive UI components using React.js and integrated the Sanity CMS for dynamic content management.
- Collaborated with a 10-member development team using Git/GitHub to deliver project features and streamline development workflows.
